

## Open House Planning

Thank you for considering Embers for your planned open house. Due to the fluctuations in open house attendance, a buffet service of 3-5 pie selections would be offered and based on the guest count you anticipate. To simplify the service, cheese, pepperoni, sausage, bacon and veggie have been most popular our events in that order. Our cauliflower crust can be available for gluten free guests but you would need to order these by count at an additional cost and offered whole since it is only 10 inches in size. These are very popular for those with dietary concerns.

Our pizzas are hand spun and take about 90 seconds to cook so are able to keep up with large groups yet reduce waste by not cooking during slow periods. Please understand, we will not be able to serve those guests with celiac sensitivity due to the amount of flour onsite during the fresh pizza making process.

We are offering 2 quotes for you to consider which includes our large 16 inch pies cut into 6 or 8 slices. Historically, guests have taken many more slices from the 8 sliced pizza so that they know they have enough and do not have to return. Just something for you to consider in your decision making for service selection. I have also included drink options for you to consider which we can discuss.

Please let us know if you have any questions or would like to confirm which service you would prefer.

Saluti,

Jill and Steven Pine
